For details of charges for calling a UK mobile or landline while abroad, see the Roaming section.

Visual Voicemail

Visual Voicemail on compatible handsets is free and will not come out of your data allowance or be chargeable if you are outside of the EU.

Wi-Fi Calling

Wi-Fi Calling allows you to make calls via a Wi-Fi network rather than a normal cellular connection. This could mean using a Wi-Fi hotspot or connection set up at home. Working in the same way as way as normal calls, Wi-Fi calls are charged at the same rate as normal cellular connection.

Wi-Fi Calling with Sky Mobile is currently available on [the following handsets](#).

4G Calling

4G calling allows you to make calls over the 4G network rather than moving your call to 3G or 2G, allowing for a better quality call and connection. Working the same way as normal calls, 4G calling is charged at the same rate as a normal cellular connection.

1. Excludes personal and pager numbers (070 and 076). To check exactly which numbers are personal numbering and radio paging services, please refer to the Specialised Numbers Guide at sky.com/specialisednumbers.

UK Service Numbers

For calls to chargeable service numbers (starting 084, 087, 09 and 118), the cost of the call will be broken down into two parts:

An **Access Charge** - this part is what Sky charges you for these calls.

	£ per minute
Access Charge, (Numbers starting 084, 087, 09 and 118)	0.45

A **Service Charge** - this is the rest of the call charge. The organisation you're calling decides how much this charge will be and will tell you this.

Both the Access and Service charges make up the total cost of any call to a chargeable service number.

Caps on charges for UK Service Numbers, Voice and SMS short codes

Under the Payment Services Regulations 2017, Sky is restricted in terms of the charges that can be imposed on a customer's bill for calls to UK Service Numbers, Voice and SMS Short Codes.

As a result, we must limit the Service Charges across these services to £40 (i.e. £33.33 ex VAT) for any single transaction and for cumulative combined Access and Service Charges to these services to £240 (i.e. £200 ex VAT) across all transactions each month.

We're obliged to ensure our customers stay within these limits, and as a result calls and texts to these numbers will automatically terminate or will not send when the cap is reached.

If you exceed the monthly threshold, then we're required to limit your expenditure by applying a restriction on calls and texts to these services.

Unfortunately, as this is a legal requirement, we are not able to remove these caps even if a customer requests us to do so however the restriction won't affect or limit any other usage or spend.

Charge-bands

There are four different ways the Service Charge can be calculated. The service number you are calling will fall into a 'charge-band' with a corresponding rate (set out in the tables below).

A charge-band is assigned to a set of numbers which are charged the same rates.

Charge-bands have codes designated to them e.g. 'Service Charge 1'. Each charge-band is explained in more detail below.

This Tariff Guide shows the calling charges assigned to the charge-bands. For a list showing which numbers are attached to which charge-bands, please refer to the Specialised Numbers Guide at sky.com/specialisednumbers. Use that document in conjunction with this Tariff Guide to find out the cost of a particular call.

This Tariff Guide shows the calling charges assigned to the charge-bands. For a list showing which numbers are attached to which charge-bands, please refer to the Specialised Numbers Guide at sky.com/specialisednumbers. Roaming Charges

When you travel abroad we'll text you information about the roaming charges in the destination you're visiting.

We've also set up a worldwide data roaming spend cap of £45 per month for each SIM so you'll never spend more than you want to on data. If you prefer, you can remove this cap at sky.com/settings.

Calls made to your Sky voicemail from abroad (+44 7488 222000) will be charged at the same rate as calls to UK landlines from abroad.

Calls made to Sky Mobile Customer Service from abroad are inclusive only when calling: +44 131 2783778 and 150.

Picture messages can only be sent to UK mobile numbers.

Roaming Passport (within the EU/EEA)

You're now able to use your phone in more than 40 EU and EEA destinations at no additional cost. Any mobile data used will come out of your UK data plan. You can also use data from your Sky Piggybank whenever you need it or if you need more just mix up your plan at My Sky.

If you have Unlimited Calls and Texts whilst you are roaming in the EU/EEA, calls and texts to standard EU/EEA mobiles and landlines will be inclusive (and it won't cost anything extra to receive calls either).

If you're a Pay As You Use customer whilst you are roaming in the EU/EEA, the cost to make a call or send a text message to standard EU/EEA mobiles and landlines is 10p per minute or per text (and it won't cost anything extra to receive calls either).

The cost to send a picture message is the same as if you were sending it from the UK (40p per message).
