FREQUENTLY ASKED QUESTIONS

I have never used Silvermouse before, how can I learn how to use it?

Please inform your Sky Production Coordinator that you are new to Silvermouse. They will assist with any queries throughout the submission process we can also arrange an online training session with the Silvermouse team.

I have logged into Silvermouse and cannot see the programme that I need to complete?

This could be for a number of reasons, which we can investigate at Sky.

Common reasons include:

- a) The project may not have been fully approved for us to issue the headers
- b) The Production Company in the broadcast system may not match your Silvermouse account which can happen if the address details are new
- c) There could be a technical reason, which Silvermouse support will need to investigate

In all cases, please contact your Sky Production Coordinator and Silvermouse Support as soon as possible.

Updated Edition August 2020

What episode order should I use when filling out the Silvermouse forms?

Please liaise with your relevant Sky Contacts prior to starting your paperwork on Silvermouse as we need to ensure it is completed against the correct order of episodes.

Where a TX order has not yet been determined by the Commissioning Editor, we will often set the order as the RX order with a view to change later, which will have implications on which header contains the information. In all cases that you are not sure, we will provide you a list of either TX or RX order, and the corresponding N-number in Soundmouse/Silvermouse.

Are Silvermouse and Soundmouse linked?

The two systems use the same data from the Sky Broadcast systems but are independent of each other. The Music Cue Sheet must be completed within Soundmouse and can be viewed in Silvermouse. The teams at Sky who receive and approve the cue sheets are different. All Music and Music Cue Sheet questions should be sent to MusicLicensing@sky.uk.

How quickly are forms approved once they are submitted?

It is advisable to submit one Episode for us to check over before you continue to input all the information to the remaining episodes if possible. We have found that this reduces the instances of Silvermouse Form Rejections.

Please notify your Sky Production Coordinator once forms have been submitted. The forms then go through a three-tier checking process. Your Sky Production Coordinator checks the content of the PAsC, the Rights Department check the details of the Rights submitted to ensure the Commissioning Agreement commitments are met. Whilst the music licensing department will review the cue sheets in Soundmouse. This process takes a minimum of 3 weeks after which time, providing there are no issues, the final payment can be released.

Do I contact the Sky Production Management Team, the Sky Rights Management or Silvermouse directly?

Both Sky teams have access to the group mailbox diamondsilvermouseusers@sky.uk. This mailbox is monitored and we decipher who is best placed to answer your query. Please contact Silvermouse on support@silvermouse.com with any technical issues such as logging in problems and web addresses not working. Please copy your Sky Production Coordinator so that we are aware of the fault.

Where can I obtain information concerning the entry of Diamond Diversity Data?

Production companies can find further information on using the Diamond-related forms in the Silvermouse Diamond User Guide (located on the Silvermouse Master Page after logging in).

Please follow the link below to the CDN Diamond Website which also has a Fast Facts Guide to Diamond.

<http://creativitydiversitynetwork.com/diamond>

Do I state the Equity Contributor's total fee or the fee per episode?

Please enter the **total** fee, as per the contract (excluding the pre-paid uses), as we can divide the fee between the amount of programmes that they appear in if necessary. This fee line must be entered in every programme of the series that they appear in and not just the first. For PACT/Equity Artists the fee to enter is contained in **Section G** of their contract, NOT the fee in Section J.

We have used a number of Extras in our Production; must I upload details for every one?

When the number of non-speaking Contributors in your production is high, to help you with submission we require a line for each UK Casting/Artist Agency (We do not require extras/walk-ons information from Overseas Contributors). Please duplicate this across each episode. We do require the following:

- A spread sheet breakdown of all the SA details: names, eps, fees and rights bought out per casting agency.
- Example chits from each casting agency
- Signed declaration stating what rights have been bought, that all chits are signed and that the Production Company will hold them on behalf of Sky

Please create one line per UK casting agency in Contributors and upload the relevant sample chit, spread sheet and signed declaration.

Where Rights are not bought out, or there is any deviation, we will require the SA to be entered individually in Contributors with their CHIT uploaded and they are to be included on the Schedule of Residuals.

Please contact us if you have any further queries.

Contributors appear in several episodes throughout a series. Do I need to upload their contract / release in each relevant episode's Contributors form?

Yes, we require these documents uploaded for each episode that the Contributor appears. It is possible to copy one entire episode form to another this will help eliminate repeatedly inputting the same Contributors.

Do I need to add every Copyright item individually or can I enter just one line for all Copyrights grouped by provider?

You can enter one line per Archive/Stills Company providing the rights and Licence Period are the same. We require a Time Code on the first appearance of Company, where Rights are not bought out, or there is any deviation, we will require a separate line to be entered individually and a corresponding licence uploaded. Where there is a Third Party Clearance within the Copyright (eg. Guild/Union Member Contributor) you are required to declare this by flagging the box:

'Third Party Clearances were required to use this Copyright clip'

Additionally we require the details of the Third Party Clearance to be entered as a new line in Silvermouse most likely in the Contributor Section, with the label of Third Party Contributor. In the Text Box on this Contributor form, please note which Copyright this relates to. All correspondence e.g. Letters to Agents must be uploaded here. Please contact the Rights Management team if you require further advice and assistance.

Why has every item in a section been rejected when there is only one item with an outstanding issue?

Approval by Item is now available – Please see below for example Screen Shot of both Contributor and Copyright Screens.

The current process is to enter ISSUE: Stating the Issue in the Text Box on the form which is then reflected against the item in the summary screen. Where you are unsure on where the issue lies, please contact your Sky Production Coordinator or Rights Management representative.

I have not heard from anybody at Sky and need to know urgently if there are any outstanding issues that are holding up final payment

Please contact your main contact at Sky directly. Once we have internally approved the PAsC on Silvermouse you will be notified by your Sky Production Coordinator.

REASONS WHY FORMS ARE COMMONLY REJECTED

Production Team

- Transmission Form: The durations listed in the hard-parted section do not match total programme duration or the occurrences do not match the required format.
- Materials: Product placement declaration/Sustainability and Actions Form (found in production pack) has not been uploaded. Location releases are not signed.
- Contributors and Copyrights: There are releases / contracts / CHITS / Child Licences missing
- Diversity Actual: Although the Contributors will pull through automatically, other members of the team have not been updated/ senior roles excluded (e.g) Production Manager/ Commissioning Editor.
- Compliance form: EPG not filled in. Check boxes don't match the programme content.

Rights Management Team

- There are no licences/releases/correspondence/CHITS uploaded in the Rights Form and/or these are not signed or uploaded in an incorrect format – These should all be uploaded as a PDF Document (**PLEASE NOTE** Safari is not supported by Silvermouse – Please use Internet Explorer or Fire Fox)
- Contributor and Copyright licences/releases/correspondence have been uploaded into the wrong section or against the wrong person
- Rights Information input into the electronic forms does not match the wording of the uploaded licence/release/correspondence
- The incorrect **Rights Template** has been completed for the item submitted which is determined by the selection made in the drop down eg. 3rd Party Contributor (This is at the top of the Rights List) has been selected against all contributors – Please see Rights Template Information below
- The minimum term has been licensed as per the Commissioning Agreement but there is no evidence of permission from the Sky Legal Department

- Some fields have not been completed correctly, such as Fee, incorrect Rights Selections for Talent Agreement/Contributor Release Forms, and incorrect rights selections for Term, Media, Territory and Channels

The Screen Shots below details how Sky require the Rights to be added, if it is a straightforward Equity PACT/WGGB Contract if you are unsure of what to enter here please call or e-mail Alison Taylor (Rights Manager) & Hunter Gibson (Rights Executive) in Sky Rights Management to confirm.

Please note that when entering Contributors you need to select the correct Contract Type in EACH tab as below (Please select this type twice especially in the Rights Template where it automatically selects the first one on the list) Do double-check before submitting as this is essential for reporting purposes.
